

World Quaker Day

Sunday 4 October

Invitation to meet for worship for peace on World Quaker Day

With the rise of online worship, the Friends World Committee for Consultation (FWCC) has for years been discussing the idea of attempting something which brings all the online meetings together.

On World Quaker Day (October 4th) we'll gather online, and hear in particular from Quakers facing conflict where they live. This will be an opportunity to listen deeply to one-another's experience, with the theme 'Let Peace be among us'.

When we gather together, Christ is with us. And because Christ is our Peace, when we meet for worship, Peace is with us, and can help us make peace.

Please join us for World Quaker Day to hold Friends living in conflict areas and their neighbours in the Light, to pray for all who are affected by the injustices and brutality of war and to collectively open up to the true way of peace.
