Scholarships for Street Kids

Many of our children's homes are built on waste land which is vulnerable to flooding during the monsoon.

PALM has a social work bursary fund which, alongside medical costs, supports the repair of houses for families in need. Then, when parents have participated in our savings scheme for some time, they can request low-interest loans. Most commonly the loans are used to relocate or improve homes, get out of high-interest debt to money-lenders, and invest in income-generating activities. The net result is that children are able to stay in education or training. **Please help us to improve the living conditions of these desperately poor families.**
