

“A career in nursing has been my dream since childhood. Thank you so much for making it possible.”

S4SK and our sister organisation in Myanmar, PALM, work together to provide quality education and vocational training to children from severely deprived backgrounds in Myanmar. Our student, Ma Aye Myat is currently working as a nursing assistant in a respected private hospital, and we will do what we can in future years to help develop her career.

Please help us to bring hope to children’s lives. You can support our work by:
