

WOODBROOKE
PRESENTS

THE 2026 SWARTHMORE LECTURE

TANGLED ROOTS: NAVIGATING THE COMPLEX LEGACY OF EARLY QUAKERS

BY STUART MASTERS

In his lecture, Stuart will explore the diverse mix of characteristics visible in the early Quaker movement that produced several creative tensions which subsequent generations have had to navigate. He will argue that engaging with these issues can help Friends better appreciate the diversity present within the global Quaker family and enable them to discern how to respond to these dilemmas today.

Saturday 2 May at 19:00 (UK time)

Live and streamed online from Friends House, London
